*Serious drought.
Help save water!*

July 9, 2018

Dear Mr. Anderson:

The California Department of Transportation (Caltrans) is dedicated to providing access to all, and we thank you for your access request #10320 (previously case #10601).

Your request is regarding the lack of a curb ramp at the southwest corner of Camino De La Reina and Qualcomm Way and lack of sidewalk southbound of Qualcomm Way between Camino Del La Reina and Camino Del Rio North in San Diego.

During the design phase, technical issues were identified with the utility relocations in the area of your grievance. Because of these issues the design phase will be completed winter of 2018. Construction will begin early 2019 with an estimated completion date of summer 2019.

If you have any questions, please contact me at Jessica.Girardot@dot.ca.gov or (916) 324-8421.

Sincerely,

A handwritten signature in black ink, appearing to read "Jessica Girardot".
